List of channels on Saorview (Ireland)

Saorview is the national free-to-air digital terrestrial television (DTT) service in Ireland. 'Saor' meaning free in Irish Gaelic. The service is owned and run by **2RN** (formerly RTÉNL) a subsidiary of **RTÉ** and licensed by the **Broadcasting Authority of Ireland** (BAI). Currently there are only PSB broadcasters providing channels and the number of channels offered are relatively small but there are plans in the future to operate commercial multiplexes as well. This is the list of channels which can be received on the Saorview service.

The most recent channel to launch was Tithe an Oireachtais which launched on 27 June 2016.

List of channels on Saorsat (Ireland)

Saorsat is the free-to-air satellite service for the Ireland ('Saor' meaning free in Irish Gaelic). It is run by **2RN** (formerly called RTÉNL) a subsidiary of **RTÉ** and is designed to compliment the digital terrestrial television (DTT) service, **Saorview**. This is to infill the areas that cannot get good DTT reception due to terrain issues and as such it mirrors the Irish DTT PSB multiplex, with the exception of TV3, 3e and

UTV Ireland, which are only available on Saorview. There is the possibility of other broadcasters joining the service in the future but as the intended audience is small, this may not be viable for commercial channels.

Saorsat is available on the Eutelsat KA-SAT 9A, which is a narrow-band satellite with a spot beam over Ireland. The parameters for the transponder are: frequency 20.185GHz, DVB-S2 QPSK, symbol rate 25000, polarisation Left circular (not V or H), FEC 1/2. Because of frequency re-use on adjacent spot beams for other countries, it is difficult to receive Saorsat service outside of the Irish footprint.

List of channels on UPC (Ireland)

UPC Ireland (owned by Liberty Global Europe) is principally a digital television cable service available through subscription in Ireland, though there are areas that still receive an analogue service and the delivery technology can also vary. It was itself formed by the merger of Chorus Digital and NTL Ireland known as Chorus NTL until rebranded as UPC Ireland.

This is a list of the channels currently available on the UPC Ireland service. The availability of channels varies depending on the package chosen and not all channels are available in all areas. However the numbering of each channel, where available, remains consistent. Launch and removal dates are shown from the UPC Ireland rebrand on 4 May 2010, onwards.

Note that the full list applies only to cable platforms. The original Chorus Digital line-up continues on MMDS (*a wireless cable technology*) and analogue platforms also have a number of different line-ups. High-definition channels are only available to customers with a Digital+ HD set-top box with a HD pack subscription required for High-definition versions of Sky Movies and Sky Sports. The ex-NTL areas (DVB-C) UPC MMDS have less channels, no HD but can in theory use the UPC PVR. The ex-Chorus areas (DVB-T) UPC also have fewer channels, as do the ex-NTL analogue ones, which is about 50% of the ex-NTL areas. On 27 March 2013 Comreg published a Decision (D06/13) that all MMDS licences will expire on 18 April 2016 and the spectrum will be auctioned off and new licences issued on a service and technology neutral basis.

The most recent channels to launch were BT Sport Extra 1-6 on channels 460-465 on 15 September 2015.

Key[edit]

UPC Packages - There are three main package options available – Value, Select Extra and Max with additional premium subscription packages available for sports, movies and other select channels plus some pay-per-view options for events. The following colour keys are used to denote which package a channel belongs to:

Package	Notes
Value	The basic package available
Select Extra	Also includes all of the channels in the Value package

Max	Also includes all of the channels in the Value and Select Extra packages
Subscription channel	Requires a subscription to a premium package
Pay-per-view	Requires a one-off payment to view an event

Future channels and events[edit]

Autumn 2015

- Sky Movies 90s and Sky Movies 90s HD to revert to Sky Movies Greats and Sky Movies Greats HD (channels 307 and 337)

2016

- Mid January - BBC Three (channel 116) replaced by BBC Three Online promotional channel (until end of February 2016). From March 2016 BBC Three becomes available online only.

List of channels on Virgin Media (Ireland)

Virgin Media Ireland (owned by Liberty Global Europe) is principally a digital television cable service available through subscription in Ireland, though there are areas that still receive an analogue service and the delivery technology can also vary. It was itself formed by the merger of Chorus Digital and NTL Ireland known as Chorus NTL until rebranded as UPC Ireland.

This is a list of the channels currently available on the Virgin Media Ireland service. The availability of channels varies depending on the package chosen and not all channels are available in all areas. However the numbering of each channel, where available, remains consistent. Launch and removal dates are shown from the UPC Ireland rebrand on 4 May 2010, onwards.

Note that the full list applies only to cable platforms. The original Chorus Digital line-up continues on MMDS (*a wireless cable technology*) and analogue platforms also have a number of different line-ups. High-definition channels are only available to customers with a Digital+ HD set-top box with a HD pack subscription required for High-definition versions of Sky Cinema and Sky Sports. The ex-NTL areas (DVB-C) UPC MMDS have less channels, no HD but can in theory use the UPC PVR. The ex-Chorus areas (DVB-T) UPC also have fewer channels, as do the ex-NTL analogue ones, which is about 50% of the ex-NTL areas. On 27 March 2013 Comreg published a Decision (D06/13) that all MMDS licences will expire on 18 April 2016 and the spectrum will be auctioned off and new licences issued on a service and technology neutral basis.

The most recent channels to launch were Sky Sports Mix and Sky Sports Mix HD on channels 105, 400 and 430 on 24 August 2016.

Current Virgin Media logo

Key

Virgin Media Packages - There are three main package options available – Value, Select Extra and Max with additional premium subscription packages available for sports, movies and other select channels plus some pay-per-view options for events. The following colour keys are used to denote which package a channel belongs to:

Package	Notes
Value	The basic package available
Select Extra	Also includes all of the channels in the Value package
Max	Also includes all of the channels in the Value and Select Extra packages
Premium channel	Requires a subscription to a premium package e.g. Sky Cinema, Sky Sports, Racing UK, MUTV, Zee TV, certain adult channels
Pay-per-view	Requires a one-off payment to view an event

List of DTT channels in the United Kingdom

This is a **list** of the current channels available on **digital terrestrial television (DTT) in the United Kingdom**, those planned for the future, and those that have been removed.

Almost all channels broadcast on DTT are free-to-air, with a limited number of subscription channels (requiring a subscription to a pay TV package) and pay-per-view channels (requiring a one-off payment to view an event) also available. Most free-to-air channels are promoted as part of the Freeview line-up.

All multiplexed H.222 transports for HDTV (1080i) channels use DVB-T2 256-QAM modulation. Local channels on the LTVmux use DVB-T QPSK modulation. All other transports for PAL (576i), radio and interactive channels use DVB-T 64-QAM modulation.

All HD channels are encoded in H.264 and subject to a MPEG-LA controlled transmission patent licensing tax which is included in the Freeview broadcaster cost and varies on viewership figures. This tax is currently paid via one of three registered licensees: the BBC, ITV and BSkyB. The SD channels continue to use H.262, which does not incur any additional transmission costs.

The PSB1 transport (operating name BBC A) is used solely for the standard definition PSB services of the BBC. The PSB2 transport (operating name D3&4) carries only standard definition versions of both the commercial broadcasters PSB services and some of their commercial services. The PSB3 transport (operating name BBC B) is used for both HDTV versions of most of the BBC and commercial PSB services and for standard definition commercial services (viz Film4 +1). The COM4 (operating name SDN), COM5 (operating name ARQ A) and COM6 (operating name ARQ B) transports, which are only transmitted from main transmission sites, carry only standard definition commercial services. The even less geographically available COM7 and COM8 transports, only broadcast from a few principal transmitting sites at significantly lower power than the other transports, carry both commercial HDTV and commercial standard definition services; SDTV channels on these multiplexes can only be received by HDTV-capable equipment.

LTVmux is a series of localised transports at certain transmitter sites carrying local and nationwide channels. Its availability is much less than that of the commercial COM transports. In addition to this, the NImux transport (operating name RNI_1) is only available in parts of Northern Ireland and the GImux transport (operating name G_MAN) is only available in Greater Manchester.

Channel sections[edit]

General entertainment[edit]

Radio stations: BBC Local and Nations Radio variations[edit]

In England and the Channel Islands, up to five BBC Local Radio stations are available over DTT. Availability of these stations vary, depending on how their FM and DAB broadcast areas align with locations of DTT transmitters. In Wales, Scotland, and Northern Ireland, national radio services are broadcast in their respective nations.

Local television in the United Kingdom

Local television in the United Kingdom, described in legislation as Local Digital Television Programme Services (**L-DTPS**), provides a television station for a specific local area. Successful applicants are awarded a sole licence for their chosen area, and are expected to locate their studios within the same area. They broadcast on the digital terrestrial (DTT) system, as used by the national Freeview service.

The independent regulator, Ofcom, invites applications in all areas where transmission is technically possible, and assesses proposals against the statutory criteria.[1]

Availability[edit]

The multiplexes that the stations operate on are operated by Comux, owned by the local TV broadcasters with operations run by Canis Media.[2]

In England and Northern Ireland, the local channels were on channel 8 and in Scotland and Wales, they were originally given channel 45; however, following a number of channel closures, channel 23 was used. However, following the closure of BBC Three, the local stations

moved to channel 7 in England and Northern Ireland, and channel 8 in Scotland and Wales. Some stations are also available (in their local areas) via cable (Virgin Media) channel 159 and satellite (Sky) channel 117 (channel 134 in Wales because channel 117 is already occupied). Channels 168, 169 and 209 (previously 216) are used if a region wants multiple local TV channels on Sky.

Phase 1[edit]

In May 2012, twenty one areas were selected to invite bids for providing a local TV service.[3]

Primary location	Transmitter	Winning operator[4]	Launch date	Other bids[5]
Belfast	Divis	NVTV	29 September 2014	Made in Belfast
Birmingham	Sutton Coldfield	Big Centre TV	28 February 2015	Bham TV, Made in Birmingham, YourTV Birmingham
Brighton and Hove	Whitehawk Hill	Latest TV	28 August 2014	*none*

Grimsby	Belmont	Estuary TV[8]	26 November 2013	*none*
Leeds	Emley Moor	Made in Leeds[9]	6 November 2014	Leeds TV, Metro8 Leeds, NORTH, YourTV Leeds
Liverpool	Winter Hill Storeton	Bay TV Liverpool[10]	4 December 2014	Made in Liverpool, Metro8 Liverpool, Our-TV, YourTV Liverpool
London	Crystal Palace Croydon	London Live[11]	31 March 2014	London8, LondonTV, Made in London, YourTV London
Manchester	Winter Hill	That's Manchester	31 May 2015	Made in Manchester, Manchester News Channel, MCR TV, Metro8 Manchester, YourTV Manchester

Norwich	Tacolneston	Mustard TV[12][13]	24 March 2014	NR ONE
Nottingham	Waltham Nottingham	Notts TV	27 May 2014	Television Nottingham
Newcastle/Sunderland	Pontop Pike	Made in Tyne & Wear[14]	12 November 2014	Metro8 Newcastle, NEON-TV, YourTV Newcastle
Oxford	Oxford	That's Oxfordshire[15]	17 April 2015	Oxford 8, Oxford 8
Preston/Blackpool	Winter Hill	That's Lancashire[16]	24 August 2015	Metro8 Preston, YourTV Blackpool & Preston
Sheffield	Sheffield	Sheffield Live TV	23 September 2014	Metro8 Sheffield, YourTV Sheffield
Southampton/Portsmouth	Rowridge	That's Solent	26 November 2014	TV Solent
Swansea	Kilvey Hill	Bay TV Swansea[17]	7 July 2016	Love Swansea

In August 2012 fifty seven applications were received to provide these services.[18][19] Bristol, Brighton and Hove, and Grimsby attracted only one bid each.[20]Plymouth and Swansea received no bids from potential broadcasters.[21]

† The owners of Birmingham licence City8 went into administration before the channel launched. The licence was re-awarded to another operator, Big Centre TV.[22]

Phase 2[edit]

In March 2013, Ofcom announced another thirty areas selected to invite bids for local television services, in addition to re-advertising the previously un-awarded Swansea and Plymouth locations.[23]

Primary location	Transmitter	Winning operator[4]	Launch date	Other bids[5][24]
Aberdeen	Durris	STV2 (Aberdeen)		
Ayr	Darvel	STV2 (Ayr)		
Bangor	Llanddona	*not awarded*[25]		Bay TV Gwynedd
Basingstoke	Hannington	That's Hampshire		
Bedford		*not awarded*		
Bromsgrove		*not awarded*		
Carlisle	Caldbeck	That's Carlisle		
Derry	Londonderry	*not awarded*		
Dundee	Angus	STV2 (Dundee)		

Guildford	Guildford	That's Surrey[26]		
Hereford		*not awarded*		
Inverness	Rosemarkie	*not awarded*		ICTV (Moray Firth Media Trust)
Kidderminster	Kidderminster	*not awarded*		
Limavady		*not awarded*		
Lincolnshire	Belmont	That's Lincolnshire		
Luton	Sandy Heath	*not awarded*		
Maidstone/Tonbridge	Bluebell Hill	KMTV †		TVKent
Malvern	Malvern	*not awarded*		
Middlesbrough	Bilsdale	Made in Teesside[27]		TeesVision
Mold	Moel-y-Parc	Bay TV Clwyd[17]		Serch TV Mold

Plymouth	Caradon Hill	*not awarded*		
Reading	Hannington	That's Reading[28]		
Salisbury	Salisbury	That's Salisbury[29]		
Scarborough	Oliver's Mount	Yorkshire Coast TV		
Stoke-on-Trent		*not awarded*		Bay TV Stoke
Stratford-upon-Avon	Lark Stoke	Upon 8		
Tonbridge	Bluebell Hill	*see Maidstone*		
York	Bilsdale	The York Channel[27]		*none*

† Maidstone and Tonbridge were initially advertised separately.

References[edit]

1. **Jump up^** Taking the base Sky EPG TV Channels. A breakdown is impossible due to a) the number of platforms, b) duplication of services, c) regional services, d) part time operations, and e) audio. For the Sky platform alone, there are basically 485 TV Stations, **additionally** 57 "timeshifted versions", 36 HDTV versions, 42 regional TV options, 81 audio channels, and 5 promotion channels as of mid-2010

List of free-to-air channels at 28°E

This is a list of all of the free-to-air channels that are currently available via satellite from SES Astra satellites (Astra 2E/2F/2G) located at 28.2 °E. These are the same group of satellites used for the Sky pay-TV platform and the Freesat free-to-air platform, therefore existing installations for these platforms would not require a realignment of the satellite dish or the purchase of any additional equipment.

Channel sections[edit]

Entertainment (including lifestyle)[edit]

List of HD channels in the United Kingdom

This is a list of current high definition channels that are available in the United Kingdom, together with those coming in the future, and those that have ceased broadcasting.

All HD channels in the UK broadcast at 1080i, apart from one which is broadcast at 4K.[citation needed] HD channels can dynamically switch between 1080i50 and 1080p25.[citation needed]

List of television stations in Northern Ireland

Television services in Northern Ireland are generally the same as those in the rest of the United Kingdom, with some variations, though services from the Republic of Ireland have been becoming increasingly available in recent years.

Northern Ireland Channels[edit]

Channel Name	Owner/Parent Co.	Freeview EPG Number

Channel Name	Owner/Parent Co.	Freeview EPG Number
BBC TWO Northern Ireland	BBC	2
UTV	ITV plc	3
Channel 4	Channel 4 Television Corporation	4
Channel 5	Viacom	5
NVTV	Northern Visions Ltd.	8 (Belfast and surrounding areas only)

Republic of Ireland Channels[edit]

Main article: List of television channels available in Ireland

The four main services have been available in many parts of Northern Ireland since their launch due to analogue overspill. In some cases, transmitters have been placed near the border in order to cover as much of Northern Ireland as possible. The channels (with the exception of TV 3) are also available on digital terrestrial, cable and satellite services throughout Northern Ireland, although some programmes are "blacked out" due to rights issues, such as some sporting events, Sunday's Gaelic football games and Australian soap opera *Home and Away*.

Channel Name	Owner/Parent Co.	Freeview EPG Number	Sky EPG Number	Virgin EPG Number
RTÉ ONE	RTÉ	60 (HD receiver required)	161	875
RTÉ 2	RTÉ	61 (HD receiver required)	162	876
TG 4	Teilifís na Gaeilge	62 (HD receiver required)	163	877

Channel Name	Owner/Parent Co.	Freeview EPG Number	Sky EPG Number	Virgin EPG Number

List of television channels available in the Republic of Ireland

This is a list of channels available in Ireland. Public broadcaster Raidió Teilifís Éireann (4 channels), first commercial broadcaster TV3 (Ireland) (3 channels), Irish language channel TG4, Eir Sport (2 channels), Irish Parliament Channel Oireachtas TV and Irish expat channel Irish TV.

Proposed & Defunct channels[edit]

Proposed[edit]

- Atomic TV: A 24-hour music channel was expected to launch in the 1990s.[6]
- Property TV and WTV: both of these channels were proposed to launch in 2008.[7]

Unknown dates[edit]

- TnaG (Telefís na Gaeltachta) was a state owned Irish language TV channel which commenced service on Halloween Night, 31 October 1996, and was initially run by public service broadcaster, RTÉ (although it was never officially an RTÉ branded service) TnaG was based in the west of Ireland and was a fore-runner of the channel TG4 today following a subsequent relaunch.
- Capital Television - this was another short-lived Dublin channel which only broadcast a caption for a week, along with a testcard at night another week. It was a pirate TV channel.

1980s[edit]

- Channel 3 - (Later known as Channel D) was a short-lived Dublin based television station broadcasting from July 1981 to October 1981. It was a pirate TV channel.
- Nova TV - this was another Dublin pirate TV channel that was broadcast for a short time in the 1980s.

1990s[edit]

- RLO TV - this was another legal/pirate television station (Satellite and UHF), broadcast in Limerick by Radio Limerick One in 1999 and 2000. An official license was granted for the satellite service in 1997 at which time digital broadcasts began making this the first digital television channel in Ireland beating RTÉ by years. During the UHF years while the station was not airing its own content they would broadcast a relay of UK Channel 5.

2000s[edit]

- Waterford@8 - this was a sister local TV service of WLR FM in Waterford. It was available on cable in Waterford city and Dungarvan and on MMDS in east Waterford and south Kilkenny. The service launched in 2000, and ceased in 2005.

- Sky News Ireland - this was an Irish version of Sky News, carried to Ireland on Sky Digital, and by most cable companies. It ceased broadcasting in November 2006 due to low audience figures.
- Chorus Sports - this was on Chorus Cable, which showed local sports, greyhound racing, and national motor racing events. This ceased broadcasting in January 2007.
- Bubble Hits Ireland - this was a 24-hour music channel targeting both the Ireland and the rest of Europe (European version). On 13 February 2009, Bubble Hits ceased broadcasting due to a downturn in advertising revenue.
- Channel 6 - active from 2006 to January 2009; replaced by 3e.

2010s[edit]

The Channel Islands and the Isle of Man[edit]

Although the Channel Islands and the Isle of Man are not part of the UK they are served by the UK's national radio stations. Additionally services in the Channel Islands are licensed by the UK's regulator, Ofcom. Services in the Isle of Man are not licensed by a UK regulator but rather by the Broadcasting Act 1990 of Tynwald

Xpression FM	University of Exeter	87.7 FM - LPFM (Moberly) 87.7 FM - LPFM (Lafrowda)
Xtreme Radio	Swansea University	1431 AM - LPAM

Name	Licence Area	Frequencies

Hospital radio stations[edit]

Typically available within the grounds of a single hospital, these stations broadcast to bedside units and occasionally public areas of the hospital. Hospital radio is free of charge on bedside entertainment systems operated by Hospedia and Premier Bedside and an increasing number of stations are available online.

Around 200 stations are supported by the Hospital Broadcasting Association (HBA).

The following stations are available via LPAM or LPFM transmitters or as Ofcom licensed community stations:

Name	Primary Licence Area	Frequency
AHBS (Ashford Hospital Broadcasting Service)	William Harvey Hospital, Ashford	See Community Radio listings

Name	Licence Area	Frequencies
Sout al Khaleej	London	12A DAB (available on 100.8 FM in Doha, Qatar)
Radio Sputnik	London	12A DAB
Acacia Radio	Annesley Woodhouse	1287 AM - LPAM
Brill AM	Brill	1449 AM - LPAM

Frequencies[edit]

To conserve space in the listings, the waveband has not been listed after each frequency, however they are easy to tell apart.

- Whole numbers always refer to a kHz (AM) frequency - i.e. 999 = 999 kHz
- Decimal numbers always refer to a MHz (FM) frequency - i.e. 96.2 = 96.2 MHz
- A number and letter combination refers to a DAB channel - i.e. 12C = frequency block 12C on 227.360 MHz

List of channels on FilmOn UK

FilmOn is an IPTV service launched in January 2009, which in the UK, is a competitor to **TVCatchup**. It is owned by FilmOn TV Networks Inc. and founded by Alki David, the heir to the Coca-Cola Hellenic shipping and bottling company and digital media entrepreneur. It offers free access (and subscription packages) to over 500 live streaming TV channels as well as Video on Demand (VOD) worldwide. The channel line-up will vary though by each country. In 2010, FilmOn launched a streaming internet TV service for mobile devices.

This listing is for the free access channels available to the UK only.

Click here to visit FilmOn.

List of channels on Freesat (UK)

Freesat is a free-to-air digital satellite television service and a joint venture between the **BBC** and **ITV Plc**, providing an alternative to **Freeview** which is on the digital terrestrial platform in the UK. The service is transmitted to the UK from the Astra satellites located at 28.2° East. It is not to be confused with 'Freesat-from-Sky'.

Current Freesat logo

Prominence of HD channels

Channel numbers sometimes differ between HD boxes and standard boxes.

On high definition (HD) boxes certain HD channels are given prominence over the standard definition (SD) counterpart (it does not apply in all regions of the UK in some cases).

The HD version of the channel does not appear on the EPG of SD boxes.

Channel List

Entertainment

On Demand

On Demand channels require an internet connection. Not all manufacturers have implemented the full range on their Freesat satellite boxes and TVs.

EPG No (SD devices)	EPG No (HD devices)	Channel name	Regions	Notes	Owner/parent company	Broadcast hours	Format
900	900	On Demand		On demand information	Freesat	24 hours	Internet Streaming
	901	BBC iPlayer		Available on all Freesat HD devices except LG Freesat TVs	BBC	24 hours	Internet Streaming
	903	ITV Hub		Available on certain Freesat HD devices except LG, Sony, Samsung and certain Panasonic Freesat TVs	ITV Digital Channels Ltd (ITV plc)	24 hours	Internet Streaming

http://www.freesat.co.uk/what-you-get/on_demand_tv/check-your-box-or-tv-for-on-demand

Regional Variations

The correct BBC One region and BBC Two nation will appear at 101 and 102 respectively corresponding to the postcode entered in the Freesat box or TV with the remainder still accessible under Regional Variations. The regional channels for the ITV Network and Channel 4 work similarly but the variants are kept hidden, except for versions with audio description option for the visually impaired.

Forthcoming changes

December 2016

- 27th - Heart Xmas reverts to Heart TV (channel 506)
- On or after 26th - Now Christmas reverts to Now Music (channel 513)

- 31st - CCTV News rebrand as CGTN - China Global Television Network (channel 211)
- Irish TV to close (channel 400)

January 2017

- 5th - True Christmas reverts to True Movies (channel 302)
- 5th - True Christmas +1 reverts to True Movies +1 (channel 303)
- By 6th - QVC Christmas reverts to QVC Extra (channel 802)

2017-18

- BBC One HD English regions to launch, subject to BBC Trust approval
- BBC Two HD nations to launch, subject to BBC Trust approval

List of channels on TVCatchup (UK)

TVCatchup is a free ad-based internet TV platform, which despite its name, re-broadcasts live FTA TV channels that can be received on mobiles, tablets, media centres, laptops & PCs. It does not use channel numbers (LCNs). Only ITV has a regional select in the Account, My Profile options with the others defaulting to the London or England version.

From 17 September 2013 the service returned to its roots by providing access to 'catch-up TV' via BBC iPlayer, ITV Player, 4oD and Demand 5, for its web version only. On 2nd October 2013 TVCatchup announced the removal of 21 channels from ITV, Channel 4 and Channel 5 including time-shifts pending a high court case. The main PSB channels from these broadcasters remain though. TVCatchup as a substitute, provided links to the respective broadcaster's own live streams and said that they would seek to restore the channels over time by 'negotiating acceptable terms' with the broadcasters. They also added some BBC channel variants and a few more minor channels as compensation plus re-ordered their listing to be in genre order for the first time.

List of channels on Sky (UK and Ireland)

Sky is the brand name for Sky plc's digital satellite television service platform, transmitted from the Astra satellites located at 28.2° East. The service is in the main available through subscription bundles with additional pay-per-view channels. Sky also provide a 'Freesat-from-Sky' option (not to be confused with Freesat) for a one off payment which has the free-to-air channels plus a small number of free-to-view ones (which require a Sky viewing card).

This list details the current channels available on Sky in the United Kingdom (UK) and Republic of Ireland (Ireland or RoI). It also includes those that are coming in the future. There are currently around 700 television and radio channels available on the Sky platform. Some

channels are not available in all regions. Subscription HD channels also require the Family Bundle in the UK and the appropriate bundle (e.g. Original or Variety) in Ireland.

Current Sky logo

Key

This table shows the colour coding used to show what type of subscription (if any) is needed to view a channel.

Bundle	Notes
Free-to-air	Channels that can be viewed without a subscription
Free-to-view	Channels that can be viewed without a subscription but require a Sky viewing card
Original Bundle	The basic bundle available for entertainment channels
Variety Bundle	Channels that can be added to the original bundle. In Ireland this includes

	certain HD channels
Bonus Pack	Available in the Republic of Ireland and Northern Ireland (though channels are free-to-air)
Family Bundle	A bundle of HD channels that can be added to the original or variety bundles (bundle available in the UK only)
Sky Cinema Bundle	Additional subscription required for Sky Cinema channels. Subscribers with an HD box receive both HD and SD versions of the channels
Sky Sports Bundle	Additional subscription required for Sky Sports channels
Sky Sports HD Bundle	Additional subscription available to Sky Sports Bundle subscribers if they want Sky Sports channels in HD
Sky Asia	Additional subscription required for selected Asian channels
Premium	Requires an additional subscription
Pay-per-view	Requires a one-off payment to view an event
Premium pay-per-	Certain adult channels are available either as a monthly bundle or pay-per

view	night

HD swap and prominence of HD channels

For channels with both an SD and HD version, Channel numbers sometimes differ between HD boxes and SD boxes.

For **subscription channels**, for subscribers to the Family Bundle (in the UK) or Variety Bundle (in Ireland) some HD channels on the HD box are "HD swapped" with the SD counterpart, giving the HD version of the channel greater prominence in the EPG. Where an HD swap applies, the channel numbers in the tables below have been shaded yellow. This also occurs for some subscription channels e.g. Racing UK.

Subscribers to the **Sky Cinema Bundle** get both the SD and HD versions of the Sky Cinema channels and the HD versions are given greater prominence on the EPG. This is regardless of whether the subscriber also subscribes to the Family Bundle (UK) or Variety Bundle (Ireland).

For **free-to-air channels** the HD channel is generally in the more prominent position in the EPG guide on HD boxes than the SD version of the same channel (though in the case of a small number of channels with regional variations in their programming, such as BBC One and BBC Two, the HD version is not more prominent in all areas of the UK). On an SD box the SD version is always more prominent than the HD version. Apart from in the case of BBC One and BBC Two in the Republic of Ireland, the more prominent HD channel is always a direct simulcast of the SD channel.

For certain **premium channels** (BT Sport Channels and AMC, eir Sport 1 and Premier Sports), the HD swap applies only for subscribers to those channels (the relevant channel number boxes are shaded green in the relevant tables below).

Abbreviations

The following abbreviations are used in the channel number columns: Eng = England; GB = Great Britain; NI = Northern Ireland; Scot = Scotland; ScotB - Scottish Borders.

Some other key abbreviations used on this page: AD = audio description; EPG - electronic programme guide; HD = high definition; LCNs - logical channel numbers; RoI - Republic of Ireland; SD - standard definition (576i); UK - United Kingdom.

Footnotes to Entertainment table

- E1 - Free-to-air but defined in Ireland and Northern Ireland as a Bonus Pack channel.
- E2, E2a and E2b - In Ireland 23 standard definition channels (footnote E2 or E2a) have identical programming to the UK versions but carry adverts tailored to Ireland. The HD equivalents of these channels, where they exist, have UK adverts in both countries. In cases marked footnote E2a, the HD swap does not therefore take place in Ireland. In two cases, marked E2b, the HD channel also has identical programming to the UK version but carries adverts tailored to Ireland.
- E3 - 1 hour timeshift service.
- E4 - 2 hour timeshift service.
- E5 - Free-to-air on Freeview but not on Sky.
- E6 - HD swap only applies to BT Sport subscribers.

Footnotes to Sports table

- S1 - On commercial EPGs the residential versions of these channels are replaced by pub versions, identifiable by a pint glass visible on screen. Programming is identical to the residential version but in some cases (e.g. Sky Sports channels and BT Sport 1 HD) the adverts are tailored to pubs. On commercial EPGs, the residential version of Sky Sports 1, 2, 3 and 4 can be found on channels 751, 752, 753 and 754 respectively.
- S2 - In Ireland these channels have identical programming to the UK versions but carry adverts tailored to Ireland.
- S2a - Sky Sports 5 (SD and HD) in the UK carries different programming at certain times to Sky Sports 5 (SD and HD) in Ireland as well as different adverts at all times. Similarly the pub versions differ in the same way.

- S3 - Included with Variety Bundle. However, subscribers to either Sky Sports 1 or Sky Sports 2 get these channels as additional channels at no extra cost even if they do not subscribe to this Bundle.
- S4 - HD swap applies only to BT Sport, eir Sport 1 or Premier Sports subscribers, as indicated.

Footnotes to Documentaries table

- D1 - In Ireland the standard definition version of this channel has identical programming to the UK version but carries adverts tailored to Ireland. The HD equivalent version of this channel has UK adverts in both countries. The HD swap does not therefore take place in Ireland.

- D2 - 1 hour timeshift service.

- D3 - In Ireland this channel has identical programming to the UK version but carries adverts tailored to Ireland.

Footnotes for Kids table

- K1 & K1a - In Ireland 4 standard definition channels (footnote K1 or K1a) have identical programming to the UK versions but carry adverts tailored to Ireland. The HD equivalents of these channels, where they exist, have UK adverts in both countries. In cases marked footnote K1a, the HD swap does not therefore take place in Ireland.
- K2 - 1 hour timeshift service.
- K3 - Free-to-air but is defined in Ireland and Northern Ireland as a Bonus Pack channel.

Box Office

With two exceptions, these channels are available only to households and are not available on commercial EPGs. The exceptions are Sky Cinema Box Office Movies and Events which appears on channel 743 (as it does on residential EPGs) and Sky Box Office HD which appears on channel 755 (a different number to that of residential EPGs).

Footnotes to Adult table

- A1 - Available with the Adult Bundle, otherwise each channel available separately pay-per-view.
- A2 - Available with the Premier or Xcellence Bundle.
- A3 - Available with the Xcellence Bundle or the Red Hot Monthly Bundle, otherwise each Red Hot channel separate pay-per-view.

Regional/Audio Description & Interactive (UK only)

Each BBC One region shown below is available on 101 or 141 in the relevant geographic region and that region is not available from EPG 951 to 968 (so, for example, BBC One London is on 101 in London so 954 is not listed on the EPG in London). Similarly, each BBC One HD region shown below is available on 101 or 141 in the UK in the relevant geographic region and that region is not available from EPG 976 to 979; and each BBC Two nation shown below is available in the UK on either 102 or 142 in the relevant geographic region and that nation is therefore omitted between 969 and 972.

Manual tuning

A number of channels are not listed on the Sky EPG but can be manually tuned (indicated by "manual" in the appropriate channel number column above). The frequencies for these channels are set out in the following table. The middle column shows which region(s) manual tuning is needed as, for example, many channels are available on the EPG in the UK but not Ireland.

Channel	Regions in which manual tuning is only means of receiving channel	Tuning details
BBC One Scotland	Region 50 (Ireland)	10803 H DVB-S QPSK 22 5/6
BBC One Wales	Region 50 (Ireland)	10788 V DVB-S QPSK 22 5/6
BBC One London (**audio description**)	Region 50 (Ireland)	10773 H DVB-S QPSK 22 5/6

Channel	Regions in which manual tuning is only means of receiving channel	Tuning details
BBC One North East & Cumbria	Region 50 (Ireland)	10803 H DVB-S QPSK 22 5/6
BBC One Yorkshire	Region 50 (Ireland)	10803 H DVB-S QPSK 22 5/6
BBC One East Yorkshire & Lincolnshire	Region 50 (Ireland)	10788 V DVB-S QPSK 22 5/6
BBC One North West	Region 50 (Ireland)	10803 H DVB-S QPSK 22 5/6
BBC One West Midlands	Region 50 (Ireland)	10788 V DVB-S QPSK 22 5/6
BBC One East Midlands	Region 50 (Ireland)	10788 V DVB-S QPSK 22 5/6
BBC One East (East)	Region 50 (Ireland)	10788 V DVB-S QPSK 22 5/6
BBC One East (West)	Region 50 (Ireland)	10773 H DVB-S QPSK 22 5/6
BBC One South East	Region 50 (Ireland)	10803 H DVB-S QPSK 22 5/6
BBC One South	Region 50 (Ireland)	10818 V DVB-S QPSK 22 5/6

Channel	Regions in which manual tuning is only means of receiving channel	Tuning details
BBC One Oxfordshire	Region 50 (Ireland)	10818 V DVB-S QPSK 22 5/6

- A summary of changes to Sky and other digital tv platforms is set out at Forthcoming changes to digital platforms (UK & Ireland).

List of channels on Virgin Media (UK)

Virgin Media (owned by Liberty Global plc, an American telecommunications and television company who also own the UPCcable platforms) operates its own fibre-optic cable network, the only national cable network in the United Kingdom. TV service is provided by subscription. The Virgin brand is used as part of a 30-year licensing agreement with Sir Richard Branson's Virgin Group Limited.

Current Virgin Media logo

Key

Package	Notes
Free-to-air	Channels that can be viewed without a subscription.

List of channels on YouView (BT, TalkTalk and Plusnet)

Current YouView logo

Channel list

This is a channel list for BT TV, TalkTalk TV or Plusnet TV using a YouView box. If you have a YouView box, but don't subscribe to BT, Plusnet or TalkTalk TV, channels in the range 300-599 are not available.

YouView is a hybrid service, combining Freeview from your TV aerial with internet delivered services, such as All4, Discovery, MTV and Netflix. The channels you can receive via your aerial depends on your location; the channels available via the internet depends on your internet service provider and subscription type.

Channels 1-224, 600-799 are delivered via your aerial as part of the Freeview service - see Master list of digital television channels (UK and Ireland) for the Freeview channels. 225-299 cannot be accessed via YouView, except where indicated.

Channels 300-599 are for YouView channels, if you subscribe to either BT TV, Plusnet TV or TalkTalk TV. Youview channel availability is subject to your subscription with BT, Plusnet or TalkTalk. Channels in this range are allocated by YouView, and genres are harmonised across BT, Plusnet and TalkTalk.

List of channels on YouView BT

This is a channel list for BT TV using a YouView box. If you have a YouView box, but don't subscribe to BT channels in the range 300-599 are not available.

YouView is a hybrid service, combining Freeview from your TV aerial with internet delivered services, such as All4, Discovery, MTV and Netflix. The channels you can receive via your aerial depends on your location; the channels available via the internet depends on your internet service provider and subscription type.

Channels 1-224, 600-799 are delivered via your aerial as part of the Freeview service - see Master list of digital television channels (UK and Ireland) for the Freeview channels. 225-299 cannot be accessed via YouView, except where indicated.

Channels 300-599 are for YouView channels, if you subscribe to either BT TV, Plusnet TV or TalkTalk TV. Youview channel availability is subject to your subscription with BT, Plusnet or TalkTalk. Channels in this range are allocated by YouView, and genres are harmonised across BT, Plusnet and TalkTalk.

The list below covers the channels available from BT.

EPG No.	Channel name	Owner/parent company	Broadcast hours	Package BT	Forma t
307	Comedy Central	Paramount UK Partnership (Paramount British Pictures/Sky plc)	08:00 - 05:00	Entertainment Plus Pack	16:9 SDTV

List of channels on YouView Plusnet

This is a channel list for Plusnet TV using a YouView box. If you have a YouView box, but don't subscribe to Plusnet TV, channels in the range 300-599 are not available.

YouView is a hybrid service, combining Freeview from your TV aerial with internet delivered services, such as All4, Discovery, MTV and Netflix. The channels you can receive via your aerial depends on your location; the channels available via the internet depends on your internet service provider and subscription type.

Channels 1-224, 600-799 are delivered via your aerial as part of the Freeview service - see Master list of digital television channels (UK and Ireland) for the Freeview channels. 225-299 cannot be accessed via YouView, except where indicated.

Channels 300-599 are for YouView channels, if you subscribe to either BT TV, Plusnet TV or TalkTalk TV. Youview channel availability is subject to your subscription with BT, Plusnet or TalkTalk. Channels in this range are allocated by YouView, and genres are harmonised across BT, Plusnet and TalkTalk. This list covers only those channels available on Plusnet.

Current EPG list

List of channels on YouView TalkTalk

This is a channel list for TalkTalk TV using a YouView box. If you have a YouView box, but don't subscribe to TalkTalk channels in the range 300-599 are not available.

YouView is a hybrid service, combining Freeview from your TV aerial with internet delivered services, such as All4, Discovery, MTV and Netflix. The channels you can receive via your aerial depends on your location; the channels available via the internet depends on your internet service provider and subscription type.

Channels 1-224, 600-799 are delivered via your aerial as part of the Freeview service - see Master list of digital television channels (UK and Ireland) for the Freeview channels. 225-299 cannot be accessed via YouView, except where indicated.

Channels 300-599 are for YouView channels, if you subscribe to either BT TV, Plusnet TV or TalkTalk TV. Youview channel availability is subject to your subscription with BT, Plusnet or TalkTalk. Channels in this range are allocated by YouView, and genres are harmonised across BT, Plusnet and TalkTalk.

Master list of HD channels (UK and Ireland)

This is a **Master List** of current high-definition channels that are available in (i) the United Kingdom and (ii) the Republic of Ireland. All HD channels in the UK broadcast at 1080i, except on Freeview, where HD channels can dynamically switch between 1080i50 and 1080p25.

HD swap and prominence of HD channels: Sky & Freesat only

On Sky and Freesat, in genres with HD channels, channel numbers sometimes differ between HD boxes and standard boxes.

Sky

For **subscription channels**, for subscribers to the Family Bundle (in the UK) or Variety Bundle (in Ireland) some HD channels on the HD box are "HD swapped" with the SD counterpart, giving the HD version of the channel greater prominence in the EPG.

Subscribers to the **Sky Cinema Bundle** get both the SD and HD versions of the Sky Cinema channels and the HD versions are given greater prominence on the EPG. This is regardless of whether the subscriber also subscribes to the Family Bundle (UK) or Variety Bundle (Ireland).

For **free-to-air channels** the HD channel is generally in the more prominent position in the EPG guide on HD boxes than the SD version of the same channel (though in the case of a small number of channels with regional variations in their programming, such as BBC One and BBC Two, the HD version is not more prominent in all areas of the UK). On an SD box the SD version is always more prominent than the HD version. Apart from in the case of BBC One and BBC Two in the Republic of Ireland, the more prominent HD channel is always a direct simulcast of the SD channel.

The number shown in the Sky column in the tables below is the most prominent number for the HD version of the channel. For certain **premium channels** (BT Sport Channels and AMC, eir Sports, Premier Sports), the HD swap applies only for subscribers to those channels so both numbers are shown.

Freesat

On HD boxes the HD channels are given prominence over the standard definition counterpart. The HD channel does not appear on the EPG of SD boxes. The number shown in the Freesat column in the tables below is the most prominent HD number.

Abbreviations used on this page

The following abbreviations are used on this page:

- AD = audio description

- BT = YouView BT
- DTT = digital terrestrial television
- EPG = electronic programme guide
- HD = high definition
- LCNs - logical channel numbers
- PN = YouView Plusnet
- SD = standard definition
- UK = United Kingdom

Genre

In a small number of instances channels exist in different categories (genres) on different platforms. So for the purpose of simplicity, Sky's classification has been used to place channels below so that they only have one entry.

HD swap and prominence of HD channels: Sky & Freesat only

On Sky and (in the UK only) Freesat, for channels with both an SD and HD version channel numbers sometimes differ between HD boxes and SD boxes.

Sky

For certain **subscription channels** that have both SD and HD versions, for subscribers to the Family Bundle (in the UK) or Variety Bundle (in Ireland) the HD channel on the HD box is "HD swapped" with the SD counterpart, giving the HD version of the channel greater prominence in the EPG. Occasionally this also applies to premium channels e.g. Racing UK. If a genre has HD channels on Sky, two different channel number columns are shown in the tables below - one with the number on SD boxes and one with the number on HD boxes. The number shown in the HD column is the number where the HD channel is shown more prominently.

Subscribers to the **Sky Cinema Bundle** get both the SD and HD versions of the Sky Cinema channels and the HD versions are given greater prominence on the EPG. This is regardless of whether the subscriber also subscribes to the Family Bundle (UK) or Variety Bundle (Ireland).

For **free-to-air channels** the HD channel is generally in the more prominent position in the EPG guide on HD boxes than the SD version of the same channel (though in the case of a small number of channels with regional variations in their programming, such as BBC One and BBC Two, the HD version is not more prominent in all areas of the UK). On an SD box the SD version is always more prominent than the HD version. Apart from in the case of BBC One and BBC Two in the Republic of Ireland, the more prominent HD channel is always a direct simulcast of the SD channel.

For certain **premium channels** (BT Sport Channels and AMC, eir Sports and Premier Sports), the HD swap applies only for subscribers to those channels.

Freesat

On HD boxes most HD channels are given prominence over the standard definition counterpart. The HD channel does not appear on the EPG of SD boxes.

Manual tuning

A number of channels are not listed on Freesat and Sky EPGs but can be manually tuned (indicated by "manual" in the Freesat and/or Sky columns). Frequencies can be found at Freesat manual tuning frequencies and Sky manual tuning frequencies.

Abbreviations used on this page

The following abbreviations are used on this page, the ones in small font in the channel number columns:

- AD = audio description
- BT = YouView BT
- EPG = electronic programme guide
- Eng = England
- GB = Great Britain
- HD = high definition
- LCNs - logical channel numbers
- Lon = London
- Man = Manchester

- NI = Northern Ireland
- PN = YouView Plusnet
- Scot = Scotland
- ScotB = Scottish Borders
- SD = standard definition
- SRB = streamed via Red Button
- TT = YouView TalkTalk
- UK = United Kingdom.

Entertainment (regions & audio description)

Your relevant region of BBC One, BBC Two, ITV and ITV +1 (including high definition where appropriate) and the relevant advertising region for Channel 4, Channel 4+1 and Channel 5 will all be available on the number shown in the entertainment list above. The other regions are available on Freesat and Sky on the EPG in the 900 series as shown below, and in some cases on the Virgin EPG in the 850 and 860 series. In the case of Freesat all regions are available in the 900 series regardless of your location. In the case of Sky the region you have on channel 101 is not repeated in the 900 series and that number will be omitted from your EPG list.

No alternative regions are available on Freeview or YouView.
